PROFESSIONAL SUMMARY

Aspiring Web Developer currently pursuing a Full Stack Web Engineering course at Programming Hero. Building practical experience through personal projects with JavaScript, TypeScript, React, Next.js, and Tailwind CSS. Focused on creating responsive, user-friendly web applications and strengthening development skills through hands-on practice.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS
Backend & Database	Node.js, Express.js, MongoDB
Tools	Git, GitHub, VS Code
Core	Responsive Web Design, Component-Based Development, REST API Integration, CRUD Operations

PROJECTS

Bazar Dor

E-commerce project built as hands-on practice using Next.js, TypeScript, and Tailwind CSS.

Live: bazardor-self.vercel.app | GitHub: github.com/nabin-90/bazar-dor

FitLog

Next.js application with authentication integration; worked with Better Auth, MongoDB Atlas, and HeroUI.

Live: my-fitlog-app.vercel.app | GitHub: github.com/nabin-90/fitlog

Dev Stack

Personal portfolio website presenting projects, technical skills, and contact information using Next.js and Tailwind CSS.

Live: devstack-by-nabin.vercel.app | GitHub: github.com/nabin-90/dev-stack

EDUCATION

Higher Secondary Certificate (HSC) — Science Group, Completed

PROFESSIONAL DEVELOPMENT

Full Stack Web Engineering Course — Programming Hero (Currently pursuing). Practical learning through assignments and projects, including frontend development and frontend-to-backend API integration.
